PRELIMINARY EXAMINATION 2011 PRIMARY 6 MATHEMATICS

PAPER 1 (BOOKLET A)

Total Time for Booklets A and B: 50 minutes

INSTRUCTIONS TO CANDIDATES

Do not turn over this page until you are told to do so. Follow all instructions carefully.

Answer all questions.

Shade your answers in the Optical Answer Sheet (OAS) provided.

The use of calculators is NOT allowed.

Name: _____()

Class: Primary 6.

Date: 24 August 2011

This booklet consists of 8 printed pages including this page.

Questions 1 to 10 carry 1 mark each. Questions 11 to 15 carry 2 marks each. For each question, four options are given. One of them is the correct answer. Make your choice (1, 2, 3 or 4). Shade the oval (1, 2, 3 or 4) on the Optical Answer Sheet. (20 marks)

- 1 Find the value of $18 + 3 \div 1 \times 5 3$.
 - (1) 23
 (2) 30
 (3) 42
 (4) 102
 - (4) 102
- 2 Find the value of 82.036 + 4.
 - (1) 2.59
 (2) 20.59
 (3) 20.059
 (4) 20.509
- 3 A greengrocer sells tomatoes in packets of 4 for \$1.60. How m
 - A greengrocer sells tomatoes in packets of 4 for \$1.60. How many tomatoes can Mrs Tan buy with \$10.00?
 - (1) 6 (2) 24 (3) 25 (4) 28

A musical performance lasted for 1 hour 30 minutes. Stella left the theatre at 9.05 p.m. At what time did the musical performance begin?

- (1) 7.35 p.m.
- (2) 8.05 p.m.
- (3) 8.35 p.m.
- (4) 10.35 p.m.

5

: 4

The figure shows a rectangular flower bed with a footpath around it. The footpath has a width of 2 m. Find the area of the footpath.

- (1) 24 m^2
- (2) $55 m^2$
- (3) 64 m²
- (4) 91 m^2
- 6

John bought *b* number of pencils. Each pencil cost \$0.50. He gave the cashier \$10. Which of the following algebraic expression correctly represents the change that he will receive from the cashier?

- (1) (50b 10)
- (2) \$(0.50b 10)
- (3) \$(10-50b)
- (4) \$(10 0.50b)

7 Which angle is equal to $\angle a$?

- (1) ∠*b* ×
- (2) ∠c
- (3) ∠*d*
- (4) ∠e x

8 ABCD is a rhombus. DE is a straight line. Find $\angle f$.

- (1) 50°
 (2) 80°
- (3) 120°
- (4) 130°
- (-) (30

9 The bar graph below shows the amount of rainfall recorded in Singapore from January to June. The readings were taken at the end of each month. What was the difference in the amount of rainfall between the highest amount of rainfall recorded and the lowest amount of rainfall recorded?

5

- (1) 120 mm
- (2) 130 mm
- (3) 140 mm
- (4) 150 mm

¹⁰ $\frac{1}{4}$ of Felicia's stamps is equal to $\frac{3}{5}$ of Ginny's stamps.

If Ginny has 14 fewer stamps than Felicia, how many stamps does Felicia have?

- (1) 6
- (2) 10
- (3) 24
- (4) 34

11 The figure shows a semi-circle, a quadrant and a rectangle. Find the perimeter of the shaded part. Leave your answer in terms of π .

(1) 37π cm

(2) 54π cm

- (3) $(17\pi + 20)$ cm
- (4) $(34 \pi + 20)$ cm
- 12 What is the average length of 3 pencils?

13 The following recipe shows the ingredients needed to bake 1 cake.

Flour	400g
Eggs	1
Sugar	250g -
Butter	300g

Mary went to the supermarket and bought half a dozen of eggs, 1 kg of sugar, 2 kg of flour and 1.5 kg of butter. What is the maximum number of cakes that she can bake?

(1) 6 (2) 5 (1) (3) 3 (4) 4

14 The table below shows the timings of 5 boys for a 100-metre race.

Name	Time				
Dennis	13.80s				
Eric	12.30s				
Fandi	12.45s				
Gurmit	10.80s				
Hock Seng	11.20s				

Which boy's timing is 1.5s faster than Eric?

- (1) Dennis
- (2) Fandi
- (3) Gurmit
- (4) Hock Seng

PAPER 1 (BOOKLET B)

Total Time for Booklets A and B: 50 minutes

INSTRUCTIONS TO CANDIDATES

Do not turn over this page until you are told to do so. Follow all instructions carefully. Answer all questions. Write your answers in this booklet. The use of calculators is **NOT** allowed.

Name:

Class: Primary 6.

Date: 24 August 2011

Paper 1 Booklet A	/ 20
Paper 1 Booklet B	/ 20
Paper 2	/ 60
TOTAL	/ 100

)

(

This booklet consists of 9 printed pages including this page.

Questions 16 to 25 carry 1 mark each. Write your answers in the spaces provided. For questions whi

ch require units, give your answers in the units stated.

(10 marks)

16 What is the missing number in the box?

10110

$$36 \times 6 + 6 \times 14 = (- 6) \times 6 + 25 \times 6$$

Ans:

17 Arrange the following fractions in descending order.

 $\frac{4}{9}$ $\frac{2}{17}$ $\frac{4}{15}$

Ans:

18 Express 15 km 2 cm in metres.

Ans: _____m

Ans:

19 Janie has some fifty-cent and twenty-cent coins. She has twice as many twenty-cent coins as fifty-cent coins. If the total value of the coins is \$3.60, how many fifty-cent coins does Janie have?

20 Mdm Aminah mixes 80 $m\ell$ of syrup with 1.5 ℓ of water. She then pours the mixture into 4 containers. How much of the mixture is in each container?

21 Water flows from a tap at a rate of 4*l* per minute into a tank measuring 50 cm by 20 cm by 30 cm. How long will it take to fill up $\frac{2}{3}$ of the tank?

Ans: min

²² $\frac{5}{7}$ of Jia Li's money is the same as $\frac{1}{6}$ of Kurian's money. Lionel has half as much money as Kurian. What is the ratio of Kurian's money to Jia Li's money to Lionel's money?

Ans: _____

24 The shape _____ can be tessellated. Shade the unit shape that does not grant to the tessellation.

12.11.1

Ans:

Which shape has the following characteristics? 25

11110-00

a. It has 2 pairs of parallel lines

- b. Diagonally opposite angles are equalc. The diagonal divides the shape into 2 identical isosceles triangles.

Ans:

Questions 26 to 30 carry 2 marks each. Show your working clearly in the space below each question and write your answers in the spaces provided. For questions which require units, give your answers in the units stated.

(10 marks)

 Kenneth goes to the library once every 6 days.
 Leonard goes to the library once every 8 days.
 If they last met each other at the library on 1July, on which day would they meet at the library again?

. ر ۲۰۰

Ans:

27 Alice has 3 times as much money as Harold. If Alice spends \$65 and Harold spends \$17, they will have an equal amount of money left. How much money does Harold have at the end?

Ans: \$

112-11-0

28

Ans:_ cm

29 The volume of the square-based cuboid is 10 000 cm³. The height of the cuboid is 25 cm. Find the area of the shaded face.

cm² Ans:_

The music store gave a 10% discount off the usual price of their CDs in celebration of their tenth anniversary. Raj paid the cashier \$18 after the discount. What was the usual price of the CD? 30

PAPER 2

Duration: 1 h 40 min

INSTRUCTIONS TO CANDIDATES

Do not turn over this page until you are told to do so. Follow all instructions carefully

Answer all questions.

Write your answers in this booklet.

The use of an approved calculator is expected, where appropriate.

Name:)

Class: Primary 6.____

Date: 24 August 2011

60

This booklet consists of 16 printed pages including this page.

Questions 1 to 5 carry 2 marks each. Show your working clearly and write your answers in the spaces provided. For questions which require units, give your answers in the units stated. (10 marks)

1 A test consists of 25 questions. A correct answer is worth 4 marks. An incorrect answer will result in a deduction of 2 marks. Li Meng scored 70 marks. How many questions did Li Meng answer incorrectly?

Ans:

2 The figure below is not drawn to scale. Find the area of the shaded region.

.

Ans:

3 Mary can type at a speed of 160 words per minute. How long will she take to type a passage that has 2 048 words?

3

Ans: ____min ____s

4 Which of the following letter(s) has/have at least 2 lines of symmetry?

na sta s

HOME

Ans: _____

5 The table below shows the rates charged by a taxi company.

 $f: \{i,j\} \rightarrow i$

Distance	Fare
First 1 km or less	\$3.00
Every 385 m or part	\$0.20
thereof .	

Siva took a taxi to his office. If the distance between Siva's house and his office is 15.5 km, how much was his taxi fare?

· · ·

Ans: \$

For questions 6 to 18, show your working clearly and write your answers in the spaces provided. The number of marks available is shown in brackets [] at the end of each question or part-question. (50 marks)

6 Ann is 8 years old. When she reaches her mother's present age, her mother would be 62 years old. How old is Ann's mother now?

11212

Ans: _____[3]

7 Henry spends 35% of his salary on transport. Of the remainder, he spends \$500 on food, 40% on rent, 16% on miscellaneous items and he saves the rest. If he earns \$4 500 every month, how long will he take to save enough to buy a computer which costs \$1 650?

Ans: [3]

- 8 The average mass of Bala, Craig and Eddle is (4d + 50) kg. Craig is one and a half times as heavy as Bala and twice as heavy as Eddle.
 - (a) What is the total mass of the 3 boys? Give your answer in terms of *d*.

111222

(b) If d = 13, what is Eddie's mass? Give your answer to 2 decimal places.

Ans: (a) [1] (b) [3]

9 Su Lin has 259 fiction and non-fiction books altogether. Of these books, 98 are hard cover books. $\frac{3}{5}$ of her fiction books have hard covers while $\frac{3}{4}$ of her non-fiction books have soft covers. How many fiction books does Su Lin have?

12432-3

Ans: _____[5]

10 Ali, Ben and Carl weighed themselves using a defective bathroom scale as shown in the diagram. The average mass of the 3 boys was 72.6 kg.

11111

Given that Ben is $\frac{2}{3}$ of Ali's mass and Carl is $\frac{4}{5}$ of Ben's mass, what is Carl's actual mass?

Ans: _____[3]

Ans: _____[3]

12 The distance between Town A and Town B is 116 km. A bus left Town A and headed for Town B. Some time later, a car left Town A and headed for Town B along the same route. Along the way, the car overtook the bus and arrived at Town B 45 minutes earlier than the bus. When the car arrived at Town B, the

bus had travelled $\frac{5}{8}$ of the distance. What was the speed of the car?

12444

Ans: _____[4]

- 13 Tank A measures 30 cm by 20 cm by 24 cm. It contains 12 600 cm³ of water. Tank B has a square base of length 25 cm and is filled with water up to a height of 11.2 cm. The water in Tank A is then poured into Tank B until the water levels in both tanks are the same.
 - (a) What is the water level in Tank B at the end?

11.11.11.1.1

(b) Water is then poured from Tank B back into Tank A such that the water level in Tank A is 1.5 times the water level in Tank B.
 What is the water level in Tank A? Give your answer, correct to 2 decimal places.

Ans: (a) _____[2]

(b) _____[3]

14 In the figure below. AB and BC are straight lines.

(a) Measure and write down the size of $\angle ABC$.

(b) Draw a trapezium ABCD, such that AD is 7.5 cm and is parallel to BC. Label the point D.

(c) What is the length of CD?

÷

- 20

Ans:	(a)	<u> </u>	_ [1]
	(b)_	·	_[1]
	(c)_		f1]

15

Sharif and Raj had some picture cards. After Sharif gave $\frac{2}{5}$ of his cards to

Raj, he had $\frac{1}{3}$ of the total number of picture cards. If Raj had 144 picture cards in the end,

(a) how many pictures did he receive from Sharif?

17.23

(b) How many more picture cards did Raj have than Sharif in the end?

(b)____[2]

16 In the diagram below, not drawn to scale, WXYZ is a square. XZ is a straight line and O is mid-way between XZ. Find

- (a) ∠GFX
- (b) ∠FWO

794

Ans: (a)____[2]

(b) [2]

- 17 The pie chart shown below shows the number of children who own pets. AOB and COD are straight lines.
 - (a) How many children keep hamsters as pet?
 - (b) Express the number of children who keep rabbits as pets as a percentage of the number of children who keep cats as pets. Give your answer correct to 1 decimal place.

Ans: (a) _____[2]

(b) _____[2]

(1,1,2,2,1,2)

18

..,

Eric and Fandi had some stamps. Eric's number of stamps is $\frac{4}{5}$ of Fandi's number of stamps. Eric gave away 12 of his stamps, while Fandi bought 5 more stamps. In the end, the ratio of Eric's stamps to Fandi's stamps is 2:5. How many stamps did Fandi have in the end?

End of Paper
