Section F: Comprehension (5 x 2) marks

Read the passage carefully and answer the questions that follow.

Peter was a shop assistant in a grocery store near the market. As he was supposed to be the first to arrive and open the shop at six in the morning, he was given the key to the store.

1

Once Peter arrived at the store, he had to first sweep the floor then clean the table. By seven o'clock, he had to make sure that the four metal racks of dried goods were displayed neatly outside the shop. The shop owner would usually come at nine and Peter must have tea ready for him. Peter would then have to walk to the nearby coffee shop to buy breakfast too. These were the different things Peter had been doing as a shop assistant for the past two years.

5

10

Peter worked every day except Sundays as the shop was closed. He was diligent and did not mind the long working hours. He only reached home at eleven o'clock every night. Peter had less than six hours of sleep and he found it difficult to wake up at dawn almost daily. However, Peter thought to himself that having to wake up early should not be a reason for him to leave his job.

Section G: Comprehension (5 x 2) marks

Read the passage below and answer the questions that follow. Your answers must be based on the given text.

Giraffes are the world's tallest mammals. They are well known for their long necks, long legs and spotted patterns. The long legs allow giraffes to run as fast as fifty-six kilometres an hour. Giraffes have small 'horns' or knobs on top of their heads. These knobs are used to protect their heads in fights.

5

Healthy giraffes live about twenty-five years in the wild and they usually live in the savannahs of Africa, where they roam freely among tall trees and open grasslands. Even though they are the tallest, giraffes are often preyed upon by lions, leopards and hyenas. Giraffes defend themselves by travelling in large herds which may consist of any age or gender.

10

The long necks of giraffes help them eat leaves from tall trees. Instead of drinking, giraffes get their water from leaves. It is difficult and dangerous for giraffes to drink at a water hole. To do so, they must spread their legs and bend down in an awkward position that makes it easy for the enemies to attack them.

15

Giraffes are hunted for their meat, coat and tails. There should be laws to protect giraffes or they will become extinct.

36. What are the knobs on top of the giraffe's head used for?

37. How long can giraffes live?

38. Why do giraffes move around in big groups?

39. Why is it better for the giraffes to get water from leaves instead of water hole?

40. What will happen to giraffes if nothing is done to stop the hunting of giraffes?
