⊆Part Q

Part Q helps it to \_\_\_\_\_

- (1) make food
- (2) stay upright
- (3) anchor firmly onto the ground
- (4) absorb water

2. Observe the plant below. The parts of the plant are labelled A, B, C and D.

Which of the following is correct?

|     | Holds the plant upright | Takes in and gives out gases |
|-----|-------------------------|------------------------------|
| (1) | D                       | A                            |
| (2) | С                       | A                            |
| (3) | D                       | В                            |
| (4) | C                       | В                            |

3. Three students observed the plant below and gave a statement each.

Abby

The plant is a flowering plant.

Bernice:

The plant has a weak stem.

Candy:

The plant does not have roots.

Who has/have made the correct statement?

- (1) Abby only
- (2) Candy only
- (3) Abby and Bernice only
- (4) Bernice and Candy only

4. The diagram below shows how air passes through the human respiratory system.

Which of the following identifies Organs P and Q correctly?

|     | Organ P | Organ Q |  |  |
|-----|---------|---------|--|--|
| (1) | Nose    | Heart   |  |  |
| (2) | Nose    | Lungs   |  |  |
| (3) | Mouth   | Lungs   |  |  |
| (4) | Mouth   | Heart   |  |  |

5. The main functions of two body systems are stated below.

System G: Protects the organs in the body.

System H: Transports digested food to all parts of the body.

Which of the following identifies the systems correctly?

|     | System G           | System H           |
|-----|--------------------|--------------------|
| (1) | Circulatory system | Digestive system   |
| (2) | Skeletal system    | Circulatory system |
| (3) | Skeletal system    | Digestive system   |
| (4) | Respiratory system | Circulatory system |

6. Three pupils had a discussion on human body systems.

The heart is part of the circulatory system.

Sally The windpipe is part of the digestive system.

The muscles are part of the respiratory system.

Max

Who is/are correct?

- (1) Joy
- (2) Sally
- (3) Joy and Max
- (4) All of them
- 7. The following statements describe what happens when food enters our body. However, they are not in the correct order.
  - A: Water is absorbed from the undigested food.
  - B: Food goes into the stomach.
  - C: Food is absorbed into the bloodstream.
  - D: Food enters the mouth.

Which one of the following shows the correct order?

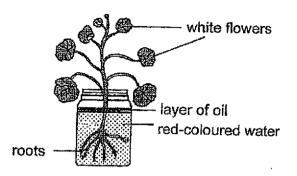

- (1) D → B → A → C
- (2) D → C → A → B
- (3) D → A → B → C
- (4) D → B → C → A
